PINETREE CAPITAL LTD.

Notes to the Interim Condensed Consolidated Financial Statements

June 30, 2012

(Unaudited - in thousands of Canadian dollars, except for securities and per share amounts)

1. Nature of business:

Pinetree Capital Ltd. ("Pinetree" or the "Company") was incorporated in 1962 under the laws of the Province of Ontario and its shares are publicly traded on the Toronto Stock Exchange under the symbol "PNP". The Company is domiciled in the Province of Ontario, Canada and its registered office address is at 130 King St. West, Suite 2500, Toronto, Canada, M5X 2A2.

Pinetree is a diversified investment and merchant banking firm focused on the small-cap market. Pinetree's investments are primarily in the following resource sectors: Precious Metals, Base Metals, Oil and Gas, Potash, Lithium and Rare Earths, Uranium and Coal. Pinetree's investment approach is to develop a macro view of a sector, build a position consistent with the view by identifying micro-cap opportunities within that sector, and devise an exit strategy designed to maximize the Company's relative return in light of changing fundamentals and opportunities.

These unaudited interim condensed consolidated financial statements ("interim consolidated statements") were approved by the Company's board of directors on August 10, 2012.

2. Basis of preparation:

(a) Statement of compliance:

These interim consolidated statements are unaudited and have been prepared on a condensed basis in accordance with International Accounting Standard 34, *Interim Financial Reporting*, issued by the International Accounting Standards Board using accounting policies consistent with International Financial Reporting Standards which the Company adopted in its annual consolidated financial statements as at and for the year ended December 31, 2011.

The same accounting policies and methods of computation were followed in the preparation of these interim consolidated statements as were followed in the preparation and described in note 3 of the annual consolidated financial statements as at and for the year ended December 31, 2011. Accordingly, these interim consolidated statements for the three and six months ended June 30, 2012 and 2011 should be read together with the annual consolidated financial statements as at and for the year ended December 31, 2011.

(b) Basis of presentation:

These interim consolidated statements have been prepared using the historical cost convention, except for some financial instruments which have been measured at fair value. All monetary references expressed in these notes are references to Canadian dollar amounts ("\$").

PINETREE CAPITAL LTD.

Notes to the Interim Condensed Consolidated Financial Statements

June 30, 2012

(Unaudited - in thousands of Canadian dollars, except for securities and per share amounts)

2. Basis of preparation (continued):

(c) Basis of consolidation:

These interim consolidated statements include the accounts of Pinetree and its wholly-owned subsidiaries: Genevest Inc., Pinetree (Barbados) Inc., Pinetree Capital Investment Corp., and Emerald Capital Corp., as well as Pinetree Resource Partnership and Pinetree Income Partnership, each a general partnership of which Pinetree indirectly owns a 100% interest. Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. All inter-company account balances and transactions have been eliminated upon consolidation.

3. Investments at fair value and financial instruments hierarchy:

(a) Financial hierarchy:

The fair value measurements use a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The level in the hierarchy within which the fair value measurement is categorized is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. Investments by sector consist of the following as at June 30, 2012:

		Fair Value				
		Level 1	Level 2 (ii)	Level 3		
		Quoted market price	Valuation technique – observable market inputs	Valuation technique – non-observable market inputs	Total fair value	% of total fair value

% of investments denominated in foreign currencies		5.0%	12.3%	14.9%	5.9%	

- (i) As at June 30, 2012, included in total investments were securities of private companies with a fair value totaling \$23,156 (cost of \$30,835) (December 31, 2011 – fair value of \$29,076; cost of \$32,996) measured in accordance with the Company's accounting policy for private company investments.
- (ii) There were no significant transfers from Level 1 to 2 during the three or six months ended June 30, 2012 or for the year ended December 31, 2011. During the six months ended June 30, 2012, \$8,313 (three months ended June 30, 2012 - \$1,212) of the investments which were held in Level 2 as at December 31, 2011 were transferred to Level 1. During the year ended December 31, 2011, \$86,466 of the investments which were held in Level 2 as at December 31, 2010 were transferred to Level 1. The transfer out of Level 2 to Level 1 consists of restricted investments which became unrestricted during the period.

PINETREE CAPITAL LTD.

Notes to the Interim Condensed Consolidated Financial Statements

(Unaudited - in thousands of Canadian dollars, except for securities and per share amounts)

3. Investments at fair value and financial instruments hierarchy (continued):

(b) Level 3 hierarchy:

The following table presents the changes in fair value measurements of financial instruments classified as Level 3. These financial instruments are measured at fair value utilizing non-observable market inputs. The net realized losses and net change in unrealized gains (losses) are recognized in the consolidated statements of comprehensive loss.

	Opening balance at January 1	Purchases	Realized losses	Net unrealized gains (losses)	Transfer out of Level 3	Ending balance
Investments at fair value:						
June 30, 2012	\$ 29,076	\$ 1,603	\$ (1,406)	\$ (3,009)	\$ (3,108)	\$ 23,156
December 31, 2011	23,428	16,371	(5,936)	7,162	(11,949)	29,076

The transfer out of Level 3 consists of investments in private companies at the start of the period and companies which were purchased during the period which became publicly-traded investments.

(c) Due to brokers consists of margin borrowings collateralized by the Company's investments held at the brokers. In the normal course of business, the Company utilizes the margin borrowings to finance its investment activities. Interest is charged on the daily outstanding balance at a tiered rate equal to the brokers' overnight rate plus 0.40%.

(d) Securities lending:

The Company has entered into a security lending agreement ("SLA") in Canada where securities in the portfolio are lent to regulated, locally-domiciled counterparties and governed by agreements written under Canadian law. The Company receives collateral in order to reduce the credit risk of these arrangements. Collateral must be in a readily realizable form, such as listed securities, and is held in segregated accounts. Transfer of title always occurs for collateral received, although no market risk or economic benefit is taken. The level of collateral held is monitored regularly, with further collateral obtained where this is considered necessary to manage the Company's risk exposure. The Company's appointed security lending managers obtain legal ownership of the collateral received and can sell it outright in the absence of default.

The details of the security lending arranging positions are as follows:

	June 30, 2012	December 31, 2011
Investments at fair value lent under SLA – carrying amount	\$ 2,455	\$ 5,860
Fair value of collateral held for investments lent under SLA	2,620	5,901

4. Income taxes:

- (a) The tax effects of temporary differences that give rise to significant portions of the deferred tax assets in the consolidated statements of financial position are presented below:

	June 30, 2012	December 31, 2011
Deferred tax assets		
Non-capital losses	\$ 1	\$ 13,175
Tax on future capital gains dividend	(3,775)	(19,257)
Investments – differences in carrying value and tax cost	22,987	14,991
Corporate minimum tax credit	3,583	4,103
Ontario transitional tax credits	964	2,427
Share issuance costs	103	167
Property, plant and equipment	109	102
Convertible debentures	(925)	(955)
Total deferred tax assets (4(c))	\$ 23,047	\$ 14,753

- (b) The following are the components of the deferred income tax benefit in the consolidated statements of comprehensive loss for the three and six months ended June 30:

	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
Non-capital losses	\$ -	\$ 1,214	\$ 13,174	\$ 11,557
Net reversal of tax on future capital gains dividend	865	3,598	(15,482)	3,598
Investments – differences in carrying value and tax cost	(4,879)	(27,991)	(7,996)	(42,621)
Ontario transitional tax credits	(269)	(3)	1,463	101
Share issuance costs and other	24	160	57	378
Convertible debentures	(39)	42	(75)	42
Corporate minimum tax credit	(31)	-	520	-
	\$ (4,329)	\$ (22,980)	\$ (8,339)	\$ (26,945)

- (c) The realization of deferred tax assets is dependent upon future taxable income during the periods in which those temporary differences become deductible. Management considers the expected reversal of net deferred income tax assets and projected future taxable income in making this assessment. Based upon the level of historical taxable income, management believes it is probable that the Company will realize some of the benefits of these deductible differences. The full deferred tax asset at June 30, 2012 was \$35,648.

5. Share capital:

(a) Authorized: Unlimited number of common shares, no par value

(b) Stock options:

The following table summarizes stock options granted during the six months ended June 30, 2012:

Date Granted	Options Granted	Exercise Price	Expiry
March 30, 2012	100,000	\$ 1.38	March 29, 2017
May 31, 2012	250,000	0.88	May 30, 2017
Total granted	350,000		

Stock options granted during the six months ended June 30, 2012 vest at the rate of 1/6th of the grant at the end of each three-month period over an 18-month period. Options granted are accounted for by the fair value method of accounting for stock-based compensation. The Company records compensation expense over the vesting period and credits contributed surplus for all options granted.

The fair value of the options granted during the six months ended June 30, 2012 was estimated at the date of grant using the following assumptions:

Black-Scholes option valuation model assumptions used (weighted average)	
Expected volatility (i)	72.2%
Expected dividend yield	0.0%
Risk-free interest rate	1.2%
Expected option life in years	3.1
Expected forfeiture rate	3.1%
Fair value per stock option granted on March 30, 2012	\$ 0.74
Fair value per stock option granted on May 30, 2012	\$ 0.41

(i) Based on the historical volatility of Pinetree's share price.

For the three months ended June 30, 2012, included in operating, general and administrative expenses is stock-based compensation of \$723 (three months ended June 30, 2011 - \$1,637) relating to the stock options granted to directors, officers, employees, and consultants of the Company.
