AUDITORS' REPORT

To the Shareholders of

Pinetree Capital Ltd.

We have audited the consolidated balance sheets of **Pinetree Capital Ltd.** as at December 31, 2005 and 2004 and the consolidated statements of operations, retained earnings and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2005 and 2004 and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

PINETREE CAPITAL LTD.
Notes to Consolidated Financial Statements
Years Ended December 31, 2005 and 2004

1. Nature of business:

Pinetree Capital Ltd. ("Pinetree" or the "Company") was incorporated under the laws of the Province of Ontario and is publicly traded on the Toronto Stock Exchange (the "TSX") under the symbol "PNP". Pinetree is a diversified investment, financial advisory and merchant banking firm focused on the small cap market. Pinetree's investments are primarily in the following resource sectors: Oil & Gas, Uranium, Precious Metals, and Base Metals. As well, Pinetree has investments in the Biotechnology and Technology sectors. Pinetree's investment approach is to build a macro position in a sector, find the micro-cap opportunities in that sector and work with those companies to build them to commercial production and create an exit.

2. Significant accounting policies:

Management has prepared the consolidated financial statements of the Company in accordance with Canadian generally accepted accounting principles. The most significant accounting policies are as follows:

(a) Basis of preparation:

These consolidated financial statements include the accounts of Pinetree and its wholly-owned subsidiaries: Genevest Inc. ("Genevest"), Pinetree Resource Partnership, Pinetree Income Partnership, Pinetree (Barbados) Inc., Pinetree Capital Markets Ltd., and Emerald Capital Corp. All significant inter-company accounts and transactions have been eliminated on consolidation. The consolidated financial statements have been prepared after giving effect to the reverse takeover of Pinetree by Genevest and the related transactions on the basis described in Note 3.

(b) Investments:

At each financial reporting period, the Company's management estimates the fair value of investments based on the criteria below and reflects such valuations in the consolidated financial statements.

(i) Publicly-traded investments:

1. Securities which are traded on a recognized securities exchange and for which no sales restrictions apply are recorded at fair values based on quoted market prices at the consolidated balance sheet dates or the closing price on the last day the security traded if there were no trades at the consolidated balance sheet dates.
2. Securities which are traded on a recognized securities exchange but which are escrowed or otherwise restricted as to sale or transfer are recorded at amounts discounted from market value. In determining the discount for such investments, the Company considers the nature and length of the restriction, business risk of the investee company, its stage of development, market potential, relative trading volume and price volatility and any other factors that may be relevant to the ongoing and realizable value of the investments.

PINETREE CAPITAL LTD.
Notes to Consolidated Financial Statements
Years Ended December 31, 2005 and 2004

2. Significant accounting policies (continued):

3. Options and warrants of publicly-traded securities are carried at the difference between the exercise price and the quoted market price of the underlying securities, if the exercise price is lower than the quoted market price. Otherwise, options and warrants are carried at nil.

(ii) Privately-held investments:

1. Securities in privately-held companies are recorded at cost unless an upward adjustment is considered appropriate and supported by pervasive and objective evidence such as significant subsequent equity financing by an unrelated, professional investor at a transaction price higher than the Company's carrying value. Downward adjustments to carrying value are made when there is evidence of a decline in value as indicated by the assessment of the financial condition of the investment based on third party financing, operational results, forecasts and other developments since acquisition.
2. Options and warrants of privately held securities are carried at cost unless there is an upward or downward adjustment supported by pervasive and objective evidence such as significant subsequent equity financing by an unrelated, professional investor at a transaction price higher or lower than the Company's carrying value.

(iii) Other investment instruments:

Included in Pinetree's investments are certain instruments that are accounted for as follows:

1. Convertible debentures and convertible notes are carried as though converted to common shares.
2. Debt instruments are fair valued at the lesser of their discounted cash flow or the fair value of the underlying security.
3. Cumulative dividends expected to be received are included in the fair value of each investment.

The resulting values may differ from values that would be realized had a ready market existed. The amounts at which the Company's publicly-traded investments could be disposed of currently may differ from carrying value based on market quotes, as the value at which significant ownership positions are sold is often different than the quoted market price due to a variety of factors such as premiums paid for large blocks or discounts due to illiquidity. The amounts at which the Company's privately-held investments could be disposed of currently may differ from the carrying value assigned, as a substantial period of time may have elapsed since the latest third party equity financing.

PINETREE CAPITAL LTD.
Notes to Consolidated Financial Statements
Years Ended December 31, 2005 and 2004

2. Significant accounting policies (continued):

(c) Cash and cash equivalents:

Cash and cash equivalents include cash and short-term investments with original maturities of less than three months.

(d) Capital assets:

Capital assets are recorded at cost, less accumulated amortization. Amortization is provided at rates designed to amortize the cost of capital assets over their estimated useful lives as follows:

	Rate	Basis
Computer equipment	30%	Declining balance
Furniture and equipment	20%	Declining balance
Leasehold improvements	6 years	Over the term of the lease

(e) Revenue recognition:

Realized gains and losses on disposal of investments and unrealized gains and losses in the value of investments are reflected in the consolidated statements of operations and are calculated on an average cost basis. Upon disposal of an investment, previously recognized unrealized gains or losses are reversed, so as to recognize the full realized gain or loss in the period of disposition. Dividend income is recorded on the ex-dividend date. Interest income and other income are recorded on an accrual basis. Deferred revenue is recognized over the period for which the revenue is earned.

(f) Foreign currency translation:

The Company's subsidiaries are considered to be integrated operations. Accordingly, monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the rate of exchange prevailing at the year-end. Non-monetary assets and liabilities denominated in foreign currencies are translated at historical rates. All revenue and expenses denominated in foreign currencies are translated at rates of exchange prevailing at the transaction dates. Gains or losses resulting from translation are included in the determination of net income (loss) for the year. Non-monetary assets have been translated at the rate of exchange prevailing at the date of transaction.

(g) Income taxes:

The Company follows the liability method of tax allocation in accounting for income taxes. Under this method, future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Future tax assets and liabilities are measured using enacted or substantively enacted tax rates expected to apply to taxable income (loss) in the year in which those temporary differences are expected to be recovered or settled.

PINETREE CAPITAL LTD.
Notes to Consolidated Financial Statements
Years Ended December 31, 2005 and 2004

2. Significant accounting policies (continued):

(h) Stock-based compensation plans:

The Company has stock-based compensation plans which are described in note 7(g). Any consideration received on the exercise of stock options or sale of stock is credited to share capital. The Company records compensation expense and credits contributed surplus for all stock options granted. Stock options granted during the year are accounted for in accordance with the fair value method of accounting for stock-based compensation. The fair value for these options is estimated at the date of grant using the Black-Scholes option pricing model.

(i) Earnings (loss) per common share:

Basic earnings (loss) per common share have been determined by dividing net income (loss) attributable to common shareholders by the weighted average number of common shares outstanding during the year, excluding shares securing employee share purchase loans and shares in escrow. Diluted earnings (loss) per common share are in accordance with the treasury stock method and are based on the weighted average number of common shares and dilutive common share equivalents outstanding. During the year ended December 31, 2004, there was no effect on diluted loss per common share as the effect of outstanding stock options on basic loss per common share would be anti-dilutive.

(j) Use of estimates:

The preparation of these consolidated financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

3. Business combination:

In the prior year, on June 1, 2004, Pinetree acquired the remaining issued and outstanding shares of Genevest for a deemed aggregate consideration of \$15,201,410 by issuing 16,826,860 pre-consolidation common shares of Pinetree. The transaction was accounted for as a reverse takeover of Pinetree by Genevest in accordance with the accounting requirements of Emerging Issues Committee Abstract #10 of the Canadian Institute of Chartered Accountants' ("CICA") Handbook, since the former shareholders of Genevest held 70.4% of the post amalgamation common shares of Pinetree immediately after the completion of the transaction.

Under this form of purchase accounting, Genevest is deemed to have acquired Pinetree and the consolidated financial statements of Pinetree for periods after June 1, 2004 include only Genevest's operating results prior to the reverse takeover and the results of the consolidated company thereafter. All comparative figures and references to the periods prior to June 1, 2004 are those of Genevest only.

PINETREE CAPITAL LTD.
Notes to Consolidated Financial Statements
Years Ended December 31, 2005 and 2004

3. Business combination (continued):

Prior to the business combination Genevest had an ownership interest in Pinetree of 17.5% and, upon completion of the transaction, purchased an additional 82.5% of Pinetree's net assets.

The total purchase price was allocated to the fair value of Pinetree's net assets as follows:

	As at June 1, 2004
Purchase price	
Original investment in Pinetree common shares at fair value	\$ 1,995,000
82.5% of the fair value of Pinetree's net assets acquired	15,030,212
Transaction costs	171,198
	<u>\$ 17,196,410</u>
Fair value of Pinetree's net assets acquired	
Current assets	\$ 4,885,588
Investments	20,253,719
Capital assets, net	267,117
	<u>25,406,424</u>
Less: current liabilities	(7,187,985)
Fair value of net assets assumed	<u>\$ 18,218,439</u>
Excess of fair value of net assets assumed over purchase price	<u>\$ 1,022,029</u>
Allocation of the excess fair value:	
Capital assets	267,117
Extraordinary gain	754,912
	<u>\$ 1,022,029</u>

The excess of fair value of net assets assumed over purchase price represents negative goodwill which was recorded as a reduction of Pinetree's net capital assets balance with the excess recorded as an extraordinary gain in accordance with Canadian generally accepted accounting principles. This extraordinary gain was not taxable.

4. Deposits in trust and contingent liability:

- (a) Arising from the reverse takeover of Pinetree by Genevest (see note 3), were two dissenting shareholders holding a total of 260,319 common shares of Genevest. In accordance with Alberta's Business Corporations Act, shareholders who dissent have the right to be paid fair value by the company for their shares. As at December 31, 2004, Genevest had paid \$2.45 per share for a total of \$637,782 as a deposit in trust for the dissenting shares which were cancelled, and the Company had accrued a contingent liability of \$780,957 against share capital relating to the payment of fair value for the dissenting shares.

During the current year, the Company settled with the dissenters holding the 260,319 common shares for an additional \$273,335 relating to the settlement for fair value of the shares. This additional amount was included in operating, general, administrative expense in accordance with Section 1506 (accounting changes) of the CICA Handbook.

PINETREE CAPITAL LTD.
Notes to Consolidated Financial Statements
Years Ended December 31, 2005 and 2004

4. Deposits in trust and contingent liability (continued):

- (b) On November 28, 2005, the Ontario Ministry of Finance ("OMF") issued notices of reassessment to the Company's wholly-owned subsidiary, Genevest, as a result of an audit of income tax returns filed by Genevest for the 2000, 2001, and 2002 taxation years. OMF, among other things, disputed the Company's revenue recognition methodology on the disposal of certain investments. As at December 31, 2005, OMF has reassessed Genevest an amount owing of approximately \$2,361,000.

Genevest is in the process of filing notices of objection within the statutory time frame. The final outcome of the notices of objection is not presently determinable. However, Genevest and Genevest's legal and tax advisors believe the Company will prevail in this matter. Accordingly, the Company has not accrued any provision relating to the income tax potentially owing on the reassessments.

7. Share capital (continued):

(a) In accordance with Emerging Issues Committee Abstract #10 of the CICA Handbook, the number of common shares disclosed reflects that of the legal parent, Pinetree, while the amounts are those of the legal subsidiary Genevest.

(b) Issuer buyback plan (Pinetree 2003):

In fiscal 2003, the Company had planned to purchase up to 455,000 common shares through a normal course issuer bid (the "2003 NCIB"). The 2003 NCIB ran from May 26, 2003 to May 25, 2004. Purchase and payment for the common shares were made in accordance with the TSX requirements. During the five months prior to the business combination, the Company had purchased 215,000 common shares of the Company pursuant to the 2003 NCIB at an average price of \$1.14 per share.

(c) Issuer buyback plan (Genevest 2004 and 2003):

In fiscal 2003, Genevest had planned to purchase up to 485,000 of its common shares through a normal course issuer bid (the "Genevest 2003 NCIB"). The Genevest 2003 NCIB ran from March 6, 2003 to March 5, 2004. Purchase and payment for the common shares were made in accordance with the TSX Venture Exchange (the "TSXV") requirements. The Company purchased and cancelled 485,000 common shares under the Genevest 2003 NCIB and also 15,000 common shares at prices ranging from \$1.25 to \$3.25.

On February 25, 2004, Genevest announced its plan to purchase up to 475,000 common shares through a new normal course issuer bid (the "Genevest 2004 NCIB"). The Genevest 2004 NCIB commenced on March 8, 2004 and ended no later than March 7, 2005. Purchase and payment for the common shares were made in accordance with the TSXV requirements. Genevest purchased and cancelled 32,100 common shares under the Genevest 2004 NCIB at prices ranging from \$2.70 to \$3.15.

(d) Issuer buyback plan (2004):

On June 9, 2004, the Company had planned to purchase up to 650,000 common shares through a normal course issuer bid (the "2004 NCIB"). The 2004 NCIB ran from July 19, 2004 to July 18, 2005. Purchase and payment for the common shares were made in accordance with the TSX requirements. During 2004, pursuant to the 2004 NCIB, the Company had purchased 443,700 common shares of the Company at prices ranging from \$1.50 to \$2.42.

(e) Issuer buyback plan (2005):

Pursuant to the 2004 NCIB, the Company purchased 206,300 common shares at prices ranging from \$2.16 to \$3.08. During the year, the Company cancelled 650,000 of its common shares pursuant to the 2004 NCIB which ended July 18, 2005.

PINETREE CAPITAL LTD.

Years Ended December 31, 2005 and 2004

7. Share capital (continued):

On July 13, 2004, the Company had planned to purchase up to 695,000 common shares through a normal course issuer bid (the "2005 NCIB"). The 2005 NCIB runs from July 19, 2005 to July 18, 2006. Purchase and payment for the common shares are made in accordance with the TSX requirements. During the year, pursuant to the 2005 NCIB, the Company had purchased 309,700 common shares of the Company at prices ranging from \$2.75 to \$3.57.

(f) Adjustment to share capital and retained earnings:

As at December 31, 2005, the Company reclassified \$6,093,771 relating to the cancellation of issuer buy back shares and dissenting shares by increasing share capital and reducing retained earnings by the same amount.

(g) Stock option plans:

The Company has two stock option plans in place for directors, officers, key employees and consultants to enable them to purchase common shares of the Company, as administered by the Board of Directors. They are referred to as the "2000 Plan" and the "2005 Plan".

The number of shares authorized to be issued was 2,000,000 for the 2000 Plan and 2,750,000 for the 2005 Plan. On May 27, 2004, an amendment to the 2000 Plan was approved by shareholders to increase the maximum issue to 5,250,000 options, being 3,000,000 options after giving effect to the 1.75 share consolidation that took place on June 1, 2004. An individual can receive grants of no more than 5% of the outstanding shares of the Company on a yearly basis and options are exercisable over a period not exceeding five years. The 2000 Plan options have a vesting period of eight quarters and the 2005 Plan options have a vesting period of six quarters. The exercise prices for purchasing these shares cannot be less than the minimum exercise price as provided by the TSX rules.

On June 1, 2004, as a result of the business combination with Genevest, existing option holders of Genevest received Pinetree options in exchange for the Genevest options. As a result, 2,022,940 Pinetree stock options were granted to former Genevest shareholders.

(h) Stock option grants:

During the year, the Company granted 1,000,000 stock options exercisable at prices ranging from \$2.10 to \$6.45 per common share and expiring from January 2, 2010 to December 5, 2010. In accordance with CICA Handbook Section 3870, options granted are accounted for by the fair value method of accounting for stock-based compensation. The Company records compensation expense and credits contributed surplus for all stock options granted.
